

According to your group:

1. Is stem cell research unethical if it uses:
 - a. Embryonic stem cells? Yes//No//Unclear
 - b. Fetal stem cells? Yes//No//Unclear
 - c. Adult stem cells? Yes//No//Unclear
2. Is it ethical to use federal funds to support stem cell research using:
 - a. Embryonic stem cells? Yes//No//Unclear
 - b. Fetal stem cells? Yes//No//Unclear
 - c. Adult stem cells? Yes//No//Unclear
3. If federal funds may be used to support stem cell research, should the government regulate, for ethical reasons, the use of:
 - a. Embryonic stem cells? Yes//No//Unclear
 - b. Fetal stem cells? Yes//No//Unclear
 - c. Adult stem cells? Yes//No//Unclear
4. If your group answered "Yes" to a, b, or c in question 3, what regulations does your group support for:
 - a. Embryonic stem cells?
 - b. Fetal stem cells?
 - c. Adult stem cells?

What empirical claims are used to support your group's position?

What ethical principles are used to support your group's position? Indicate whether these values are explicitly stated or implicitly relied upon in your group's statements.
